Passion

Ever had a backup gone missing? A restore failed due to dusty tapes?

ITPassion is launching ITPassion Atlas Domestic, a full featured online backup system that keeps data at secure locations, on disk, always ready for you to restore. All is needed is to visit <http://storage.itpassion.com/products/atlas/domestic> and to sign up for this great new service.

Is the bandwidth in your SAN becoming less and less due to virtualisation?

At the Storage Expo 2008, on 15th and 16th October, ITPassion will be launching new products and services around the Brocade 8 Gbps platforms, the DCX core switch, and the new Host Bus Adapter. The DCX core switch delivers the first milestone towards a converged Data Centre Network that consists of Fibre Channel for Storage and general IP networking for server access data protocols; the new HBA delivers point-to-point guaranteed data paths from your virtual server to your storage, at affordable speeds.

Is your Professional Service Provider behind on technology?

ITPassion delivers first rate service to organisations of any size, at a market beating price. All our staff is driven by the passion that they have for their field of expertise. This guarantees you the best service money can buy. That in turn delivers a Storage Environment that is operated according to Best Practices and years of experience.

What do you have to do to get all this?

Come and visit us at the Storage Expo 2008 at the London Olympia, stand 498. Request a meeting with our Automated Meeting Request system at http://storage.itpassion.com/expo2008/meet_and_greet.php and receive a free high-quality pen with your name engraved on it.

Or you can contact us at our new free-phone telephone number: 0800 678 3248, or send an email to info@itpassion.com.
